

EAST VILLAGE ASSOCIATION, INC. REQUEST FOR PROPOSAL

for Installation of Strand Lighting in East Village

Release Date: 5/18/2022

Due: 6/17/2022

Background: East Village Association, Inc.

The East Village Association, Inc. is a nonprofit corporation, public benefit corporation (509a2) that manages the East Village Business Improvement District (EVABID). EVA's mission is to support and promote East Village businesses by establishing the community as San Diego's livable urban village. It's vision statement: East Village will be recognized as San Diego's vibrant, diverse, urban community where residents and the entrepreneurial spirit thrive—a distinct mix of arts, culture, education, and entertainment.

Scope of Work

The East Village Association is requesting proposals for a qualified electrical company that can install dynamic LED RGB bulb style strand lighting (pole to pole) consistent with the existing LED RGB strand lighting on Market Street in downtown San Diego. This lighting project will extend the lighting on both the north and south sides of **Market Street from 6th Ave to Park Blvd.**

Scope of Services

PHASE 1: Permits

Assist EVA management in obtaining all required permits, inspections and approvals necessary and required to complete the installation of electrical outlets on midblock light poles, as well as, permits required for connecting lights from the outlet from pole to pole.

PHASE 2: Electrical Outlet Installation

Contractor shall install City approved electrical outlets at the top of midblock light poles to power strings of dynamic LED RGB bulb style strand lights to adjacent poles.

- Provide all electrical components (wiring, outlets, convertors, etc.) as necessary
- Provide recommendations, based on conditions in the lighting corridors, for the number of poles/outlets that will be required to provide sufficient power to lighted corridor
- Provide all necessary documentation, insurance and work required for permitting Provide all manpower, equipment tools and materials necessary to complete the work
- Provide comprehensive documentation of work completed including map of locations and details on type of materials used, wattage and any other necessary information.

PHASE 3: Light Installation

- Provide a 3-year product warranty and a one year maintenance contract.
- Provide all necessary documentation, insurance and work required for permitting
- Provide all manpower, equipment tools and materials necessary to complete the work.
- Provide all electrical components (wiring, outlets, convertors, etc.) as necessary.
